MEMORANDUM FOR: Deputy to the DCI for National Intelligence  
FROM : Deputy to the DCI for Resource Management  
SUBJECT : Quality of Intelligence Analysis

In forwarding a report on quality of intelligence analysis initiatives to the Senate Select Committee on Intelligence the DCI indicated that his staff would "prepare a comprehensive five-year program, as an element of the Calendar Year 1978 program development cycle, to further strengthen the quality of analytical products." It is my understanding that NFAC will take the initiative in developing such a plan for the Community. My staff is prepared to provide assistance, as appropriate, to this important effort and will review the program developed for resource management related issues. Of concern is that during the FY 1979 budget review the Congress eliminated, for reasons of inadequate justification, a significant number of the proposed programs designed to improve the quality of analysis.
